

Tower Hamlets Education Business Partnership

Offers a range of volunteering opportunities that allow business people to help young people broaden horizons, build confidence and develop the skills they will need to succeed in the workplace.

An ideal taster for those considering a teaching career to work with today's young people in a school setting.

Why get involved?

Tower Hamlets is one of the most deprived UK boroughs with the highest youth unemployment rate, despite being in the heart of London. For young people, working with volunteers from business can offer them invaluable insights into the world of work.

One Off Volunteering Opportunities...

GETTING AHEAD EMPLOYABILITY WORKSHOPS

Prepares students for the world of work by encouraging them to think about the skills and qualities they have, as well as those they may need to develop or improve.

The day consists of short, active and fun workshops, allowing students to build relationships with the volunteers and learn about their own work/life experiences.

Volunteer Time Commitment
Half or full day.

HEAD TO HEAD MOCK INTERVIEWS

Provides students with the opportunity to attend a structured interview with a business volunteer and helps them transform experiences into successful job interview techniques.

The interview is based on the pupil's CV and is followed by constructive written and verbal feedback from the interviewer.

Volunteer Time Commitment
Half or full day.

ENTERPRISE AND FINANCIAL LITERACY

The workshops use a range of different situations and scenarios to get students thinking about enterprise and finance – everything from designing and marketing their own board game, to creating a campaign to increase recycling to budgeting for university!

Volunteer Time Commitment
Events can be anything from an hour workshop to a full day of activities.
